McClain County

Dear Sir:

As you know, this letter is a "testimonial" in regards to the SynchroGuide sequential barricade light system that was utilized in the above referenced project's work zone tapers.

To say the least, I was very impressed with the system. I also received numerous accolades from the driving public. Because of the "sequential strobe" effect, I feel an added safety factor was imparted to the motorists and also drew attention to the tapers itself.

I would recommend this product for any Highway or Interstate project. I am currently pursuing establishing this system on another I-35 project that kicked in last month.

Sincerely,

A handwritten signature in blue ink that reads "Cary Raley".

Cary "Red" Raley, P.E.
